audience may come forward to speak on any topic that did not appear in tonight's agenda. If you wish to do so. Please come forward state your name and address and topic you wish to discuss your comments to three when you're finished is the paper sign the year because of course the state your name and that We card 723 Phillips Rd. NE. I'm here because of course you know it's summer and spring and last year as I was driving all over Massillon. It's deplorable these people do not mow the grass think we were talking businesses were talking homes. No wonder nobody knew been wanted to mass and hospital Amherst looks like the the homes up there are deplorable first Street is horrible the Southwest section is terrible whales from Lincoln way to help to Hankins is horrible. I understand that those are probably rented make and people that own those homes either mow the grass have the people that occupy them and if they don't turn down fourth these people seven the North born serve the farmer keep that's the only way you go to clean it up. There's no excuse the way these homes no excuse I mean it's just a little bit of work just like the the know what it is a rehab or whatever between fourth and fifth terrible want this kind of it different decide what were the fences the weeds risk, I know there's no considered cigarettes you know sitting on the bench or whatever the steps of the you know what they have problems but the taxpayers are paying for their counseling for them to get their minds right we they should go out and do a little bit of work. Maybe they went have yes last year was it was terrible the house on what is that that some six Street and Lincoln way those 23 right here class from the that the AMVETS therefore and you really what I mean from from the front still from from the all the way out to the state Highway Patrol barracks sit here the terrible the just taking care of it's not and it's not a money issue just a little bit of maintenance a little bit of work and I just force him to either the you know the people that ran on to either do some of this that tearing down. Fourth, I mean it's terrible. It looks horrible the she made the Mayor makes a big issue but the downtown downtown. Is there some empty storefronts, but that the downtown looks nice but some of the main streets while what you know what just like even in mind the neighborhood I live in the Mayor and parkways by me there's a couple that will they were older when they moved in they they never, ever mow the one piece of their property of course is really shaded and I know when you're my brother went into its spring cleanup it was so bad that when they got in doing the leaves there was even know grass and backyard you know that that's an acceptable that's is acceptable as far as I'm concerned you know and I can understand why no one wanted Manson hospital just it's terrible to make Street so you know what I thought is drove me crazy last year and I took the time out of my day to come down here and they thank you. Thank you just grew which was about all I can't agree with those verses burden, but I agree with this problem. Mrs. Tom will commercial paper water call so why don't know don't get mow so that I don't know what it just look these kind of things go and I know people have a lot of money but it's not the money I made got grants were with in the morning grants for cleanup little bit know property just will economic developers will freeze your. The drive was there you see the people will that while I take care of clean purchase. But the moment it all I went down there is likely make goes along well our kids to start the final will Florida guys will let them go pull which this writer probably should all city all Bill take her belief is Bill muscle will I know people have will understand is what this thing will talk people to make big money back to make that will support the Nice just mold were asking the thank you George Cleveland 222 like to

Northeast the first of all of course is as well as well stuff. It's only agenda because two weeks ago I was talking about 40 look down so what they do over the let the streets block off the streets for people to roam the streets and jury command or whatever we want to do those last year never got to the agenda 100 and 2/11 to go over to spend the money it will stay here to spend the money the other motor really follow up on the 2019 so hopefully will be addressed one way or another. Note the know matters in the taxpayer a little here are care about mass if I had the time is available running for city Council on what is the time for this open conduit 110% not to be complacent no real people and was all to clean it up or make a phone call that I think that's a part of the problem is people don't call the code enforcement in the that I think that would help. But anyways the like two weeks ago the gave everybody the study the paper for from Hendrickson Paul you were here so I give you will but it was pretty needs to for the far load jobs love incentives with this. This is a copy so this paper is very would lose little flyers I gave everybody because that's like a bargaining chip for to get people to move your the this is the all the tax breaks and all the requirements Hendrickson had to here to know there's a lot like the last couple of paragraphs of there's a lot of stipulation will so but board is Meyer is expanding the grocery stores you know throughout Ohio will be my sister little better in their open wireless we nine-year-old lives in Worcester that they want to put Meyer over there so I'm hoping that the city Council will have one of them backdoor meetings that have private meetings where the negotiate. So the try to do Meyer over where I came artist. Skateboarding all its perks and I think the vessel needs the grocery store but anyways I just don't know what were aware of that's going on the economy started to know so many people were money 401(k)s will is the that was the main focus of the talk about the just the very some businesses there tax breaks tax incentives and I hope somebody reaches out to me about how to get stuff on this agenda and if I'm wasting my time always my time, but I care about mass and I just thought that you know like you said that one time you stood close off the streets for on the weekends on Saturdays for partial cars zero cars may still do it is kind still the it shows that there really are anything but roller coasters money studies there is minutes taxes cumulate for the city the think it's a win-win the one other thing is the all watch this got Stevie so it's not for like 10 minutes number one fear of people is talking public sites, but it's talking front of somebody of people not I think that's one reason people come down there is integrity to go I can get you a letter for the Heights the molecular with no that will I think that's one rings a lot of people that speak your mind which I remember the paper validates a lot of things that say a lot of times I feel like out here on since I become an upper maybe three people approach me and so George somebody said what you said want stay for our lives in her longtime you know she reached out to make all as to the it's not as some type of the fact whether spirit that that was my sister Susan two weeks is talk think anyone else counseling Cunningham second by Councilman Sterrett meeting adjourned
