- **Housing:** A full rehabilitation has been completed for a Massillon Homeowner, this project brought the home completely up to the code, made the home safer, and more sustainable as well . We are preparing to award a second full rehab to a contractor as well. We are excited to assist this homeowner to also bring their property up to code. She has leaking water, and other repair issues that are very much needed. We have two income approved buyers hoping to utilize our First-time home buyers' program. Fire Department | 233 Erie Street South, Massillon, OH 44646 | 330.833.1053

July's training included an overview from Fire Prevention on investigations and fire crews' roles and responsibilities. Crews also completed basic boat and water/river rescue tactics. The monthly EMS training covered sports and ortho injuries.

Fire hose testing was completed in July. No fire hose needs to be replaced.

Asst. Chief Harbaugh continues working through projects related to facilities. The Central Fire Station signage project is moving forward and should be completed by early fall. Concrete work is still in the assessment and planning stages. Most of the concrete work appears smaller in nature and should include smaller patching projects handled in house.

Asst. Chief Spicocchi and the uniform committee are nearing completion of their project and should have recommendations by the end of August.

Asst. Chief Rhodes and Captain Castile are finalizing their research and recommendations for a trailer to carry our rope rescue and technical rescue equipment.

Respectfully submitted,

Matthew Heck
