CITY OF MASSILLON
INTERNAL CORRESPONDENCE

TO: Kathy Catazaro-Perry, Mayor
FROM: Kenneth Koher, Income Tax Administrator
SUBJECT: Income Tax Department Monthly Report – April 2015
DATE: May 8, 2015

.....

Total tax revenue receipted for April 2015 will not be known until late June or early July. As of April 30, 2015 actual date, the tax returns processing date was April 7th. A better apples-to-apples comparison would be to use last April 30th's report that also only included those tax returns that had been processed by month-end. Comparing that number to this April's monthly tax collections the city is ahead \$121,457.10, an increase of 8.1% for the month. There will be a significant decrease in the number of "zero" tax return filings to process this year due to the tax credit reduction that became effective 7/1/2014. Zero returns are those that are filed by Massillon taxpayers who do not have a city tax liability due to the withholding and payment of local income taxes to other cities and villages where they work IF that tax rate is equal to or greater than Massillon's 1.80% income tax rate.

Payroll tax withheld by Massillon employers remains strong representing 72% of all tax collections for the first 4 months of this year – identically matching last year's percentage of total collections. The average monthly *Withheld Income Tax* (payroll deductions) for the current period and the past three years are as follows:

- 2012 - for twelve months ending December 31, 2012 = \$ 884,640 per month
- 2013 - for twelve months ending December 31, 2013 = \$ 956,130 per month
- 2014 - for twelve months ending December 31, 2014 = \$ 990,970 per month
- 2015 - for four months ending April 30, 2015 = \$1,031,459 per month*

* Indicates does not include \$93,646.53 collected this month for 2014 withholding tax arrearages

Income tax revenue on a last-twelve-months ("L-T-M") moving average basis was \$1,283,903 and compares favorably to last April's \$1,259,482. The L-T-M monthly average target for this year is \$1,354,210. With these numbers in mind, the year-to-date totals this year are slightly ahead of where we were at on April 30th last year.
